

Year 5 Learning Project Week 4 - Animals

Weekly Maths Tasks (complete one a day)	Weekly Reading Tasks (complete one a day)
<ul style="list-style-type: none"> • Working on Times Table Rockstars - your child will have an individual login to access this. • If your child works on ‘Numbots’ in school they can access this with the same login. • Direct your child to play on Hit the Button - focus on times tables, division facts and squared numbers. • Encourage your children to compare decimal numbers on this game. • Arithmetic practise on Maths Frame. • Get your child to work on their reasoning and problem solving by practising past SATs questions that are broken down into topic areas and have videos linked to them that can be watched if needed. As these are older papers these are suitable for year 5. Click on one of the topic areas listed to gain access to the questions. 	<ul style="list-style-type: none"> • Ask your child to read a chapter from their home reading book. • When they have completed the chapter, ask them to re-write this from the viewpoint of another character. • Explore the Highwayman Poem. Can they learn it by heart? Can they draw an alternative sketch to represent the Highwayman? • Download ‘A Pinch of Magic’ from authorfy. Your child can then complete the questions on page 4 • Your child can log on to Oxford Owl and read a book that matches their book band. After this, direct your child to review the text and justify their opinion with examples from the text.
Weekly Spelling Tasks (complete one a day)	Weekly Writing Tasks (complete one a day)
<ul style="list-style-type: none"> • Practise the Year 5/6 Common Exception words. • Practise your spelling on Spelling Frame. • Ask your child to create a word bank of feelings that they have felt over the week. They may be able to identify any spelling rules the adjectives contain. Encourage them to try and include an adjective with a silent letter • Get your child to proofread their writing from the day. They can use a dictionary to check the spelling of any words that they found challenging. This will also enable them to check that the meaning of the word is suitable for the sentence. 	<ul style="list-style-type: none"> • Write a diary entry/newspaper report summarising the events from the day/week. • Your child can write a formal letter to West Midlands Safari Park persuading them to close the park. They must justify their opinions with factual information. • Choose an animal of their choice and think about how it moves, what sounds it makes and the environment that it lives in. Your child can then write a poem based around these ideas. They can repeat this activity for different animals. • Your child now has an in-depth story plan. They can begin to write their story considering the devices needed for their genre. How will the dialogue convey their character and advance the action? • Animal’s hearts should be cut up for science experiments. Do you

agree/disagree? Ask your child to write a discussion about this statement.

- Take part in a writing [master class](#).

Learning Project to be completed throughout the week

The project this week aims to provide opportunities for your child to learn more about key animals they are interested in. Learning may focus on exploring the physical aspects of an animal, their habitat, categorising animals etc.

- Animals and their Environment
 - Your child can describe how animals such as Emperor Penguins, chimpanzees and orcas have adapted to suit their environment. They can do this by writing a short summary after carrying out some research. After this, ask them to design a new wondrous animal that has evolved to suit its environment considering the environmental changes it has had to face over recent years.
- Where Animals Originate From
 - Ask your child to locate on a world map where different animals originate from and research why they live in these environments.
 - Things for them to consider when researching why they originally lived in these countries are:
 - Food sources
 - Climate
 - Weather
 - Terrain
 - After doing this, ask them to think about how the animals they have selected have adapted so that they are able to live in the UK. Present your findings as a poster or in a PowerPoint presentation if they have access to a PC.
- Life Cycles
 - Ask your child to research a mammal, an insect, an amphibian, a reptile and a bird. They can then choose one and draw the life cycle of an animal and label the diagram accordingly. How does the life cycle of the chosen animal differ to a human life cycle?
- Animal Prints
 - Using a variety of media (this could be materials from around the house such as cloth, newspapers or magazines, felt, etc.), ask your child to create animal prints for a mammal, an insect, an amphibian, a reptile and a bird of their choice. After, they can create a collage of the animal prints they have made. They could always use a pencil or pen to sketch the animal prints!
- The Life of Darwin
 - Who was Charles Darwin? Ask your child to research the scientist's theory on evolution.
 - Where are the Galapagos Islands? What species did and do still live there? What makes these animals unique and extraordinary?
 - Write a biography about the life of Charles Darwin.
