

Early Bird

Complete the pattern:

Partition this number into different combinations:

What is the number?

I have 7 tens and 2 ones.

I have 3 tens and 5 ones.

$$3 \times 11 =$$

$$4 \times 11 =$$

$$10 \times 11 =$$

Complete these calculations:

$$61 + 50 =$$

$$66 + 5 =$$

$$32 + 50 =$$

$$98 + 5 =$$

What time is it?

Which is the longest time duration?

7 minutes

15 minutes

65 minutes

60 minutes

Order these numbers from smallest to largest.

Early Bird

What time is it?

Complete the pattern:

Partition this number into different combinations:

What is the number?

I have 6 tens and 3 ones.

I have 5 tens and 1 ones.

$$2 \times 12 =$$

$$4 \times 12 =$$

$$6 \times 12 =$$

Complete these calculations:

$$31 + 50 =$$

$$39 + 5 =$$

$$55 + 50 =$$

$$81 + 5 =$$

Which is the longest time duration?

8 minutes

17 minutes

105 minutes

31 minutes

Order these numbers from smallest to largest.

Early Bird

Complete the pattern:

Partition this number into different combinations:

What is the number?

I have 9 tens and 8 ones.

I have 1 ten and 7 ones.

$$1 \times 7 =$$

$$6 \times 7 =$$

$$12 \times 7 =$$

Complete these calculations:

$$43 + 60 =$$

$$74 + 8 =$$

$$71 + 70 =$$

$$41 + 4 =$$

What time is it?

Which is the longest time duration?

8 minutes

17 minutes

15 minutes

10 minutes

Order these numbers from smallest to largest.

Early Bird

Complete the pattern:

Partition this number into different combinations:

Complete the missing number:

$$12 + \underline{\quad} = 14$$

$$\underline{\quad} + 24 = 50$$

$$2 \times 12 =$$

$$5 \times 12 =$$

$$10 \times 12 =$$

Complete these calculations:

$$43 + 30 =$$

$$74 + 6 =$$

$$71 + 30 =$$

$$41 + 6 =$$

What time is it?

Which is the longest time duration?

33 minutes

9 minutes

100 minutes

46 minutes

Order these numbers from smallest to largest.

99

11

88

33

66

Early Bird

Complete the pattern:

Partition this number into different combinations:

Complete the missing number:

$$31 + \underline{\quad} = 41$$

$$\underline{\quad} + 16 = 20$$

$$2 \times 3 =$$

$$5 \times 3 =$$

$$10 \times 3 =$$

Complete these calculations:

$$15 + 30 =$$

$$89 + 6 =$$

$$12 + 30 =$$

$$55 + 6 =$$

What time is it?

Which is the longest time duration?

18 minutes

2 minutes

65 minutes

30 minutes

Order these numbers from smallest to largest.
